Duration: 7 days

Quorum: 7.5% (= 372/4958 non-frozen SMB Gen2 NFTs)

Passing vote: 51%

Summary

Provide SMB Gen2 NFT holders with priority signup or allocation for MonkeDAO events during Solana Breakpoint 2023 in Amsterdam

Proposal Details

Solana Breakpoint events have limited spots and can't accept everybody. At last year's Breakpoint events in Lisbon, many MonkeDAO members were unable to attend specific MonkeDAO events due to limited availability.

Due to the increased membership now with Gen3 members of MonkeDAO, it is quite possible that a higher percentage of OG monkes will be unable to attend each event due to the limited spaces available.

For this reason, the proposal is to ensure Gen2 members have priority access to events, either by specifically reserved spots for Gen2 members, or by early access to the event sign ups.

Goals / Evaluation Metrics

- Ensure the highest tier of DAO membership receives the highest tier of access and rewards

Benefits to DAO & Individual Members

- Provide direct utility for SMB Gen2 holders

Risks & Concerns

- Even with priorities applied, most events will have limited spots and members will still miss out

- Depending on how these priorities are applied there may be no spots left for Gen3 members, which could make them feel like they're not actually part of the community

Tentative Timeline/Roadmap

- Implementation to take place for all MonkeDAO 2023 Breakpoint event sign-ups before Breakpoint (October 30 - November 03, 2023)

Treasury Spending

None
