Summary

A lot of gen3 owners can't tell what's going on with MonkeDAO proposals and votes and can't contribute in any meaningful way. So let's allow them to.

To be clear **this will not allow them to vote or create proposals**, but will allow them to view and understand what is going on.

Proposal Details

Allow **read-only access** (no posting or reacting to any posts) to Gen3 members of the MonkeDAO discord to the following channels:

- #📦 | votes
- #📦 | vote-results
- #📦 | vote-proposals

Allow **posting** by Gen3 members of the MonkeDAO discord **in threads** of the following channels:

- #📦 | votes
- #📦 | vote-proposals

This means they can participate in the discussions, but can't vote or react.

Allow **full access** to members of the MonkeDAO discord to the following channel:

- #📦 | vote-chat

This will allow them to understand what is going on and participate in discussions, without giving the ability to *directly* impact any proposals or votes.
